DGX-670

LET THE NEW DGX-670 ENTERTAIN YOU

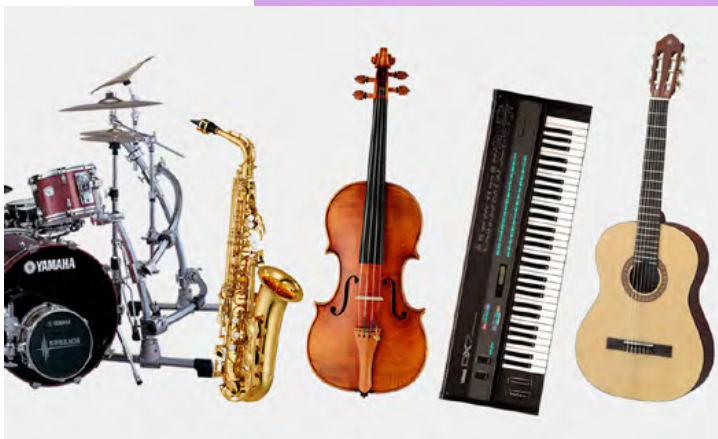

AUTHENTIC PIANO TOUCH, 88-NOTE WEIGHTED GHS KEYBOARD

The Yamaha Graded Hammer Standard (GHS) Keyboard features a weighted action with heavier touch in the low end and lighter touch in the high end, just like the hammers inside an acoustic piano. Great for the aspiring pianist, practicing on the GHS action builds the proper finger technique and strength for when the time comes to perform on an acoustic piano.

HIGH PIANO QUALITY

Only Yamaha can offer the elite quality of the DGX-670 piano Voices. From tonal variation that responds to the player's touch to the sympathetic resonance of grand pianos, the impressive sound represents an authentic piano-playing experience only an acoustic piano manufacturer can deliver. DGX-670 is equipped with the CFX Voice, sampled from the Yamaha's very own flagship 9' concert grand piano that offers sparkling highs and a powerful resonant bass, combined in a sound that projects to the furthest reaches of any concert hall.

JAM WITH THE BAND PACKED INTO THE DGX-670

The DGX-670 offers a wide range of Voices in addition to the piano, featuring 630 realistic-sounding instruments including electric pianos, organs, and strings, to catchy synthesized sounds. The advanced Automatic Accompaniment Styles make it possible to jam with any number of other "musicians", from a combo to a big band. There are 263 accompaniment Styles including rock, R&B and dance. Enjoy an experience that feels just like playing a live session in a band.

LET THE NEW DGX-670 ENTERTAIN YOU

PLUG-IN A MICROPHONE FOR KARAOKE OR SINGING WHILE YOU PLAY

Since a microphone can be connected to this instrument and Song lyrics can be shown on the display, you can enjoy singing along with your keyboard performance or along with Song playback. Moreover, you can apply various studio-quality effects such as chorus to your singing voice. You can also cancel the vocal part on audio recordings, letting you sing along with (or instead of!) your favourite artists and groups, and enjoy performing even more.

AUDIO PLAY & RECORDING

Audio files (WAV format) saved to a USB flash drive can be played back on the instrument. You can also record your performance as an audio files to a USB flash drive—making it easy to edit your recordings on a computer as desired and share them over the Internet.

CONNECT WIRELESSLY FOR BLUETOOTH® AUDIO

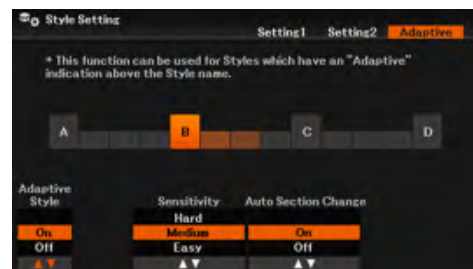

You can play music through the audio system on the DGX-670 by using a Bluetooth®-enabled smart device. Enjoy playing along with your favourite songs directly from your smart device!

NEW ACCOMPANIMENT FUNCTIONS

ADAPTIVE STYLE – ACCOMPANIMENT THAT AUTOMATICALLY ADJUSTS TO YOUR PLAYING INTENSITY.

The DGX-670 is equipped with Adaptive Style, a function that automatically analyses your playing in real time and arranges accompaniment to suit the mood of the music. Play with more intensity, and Adaptive Style ramps up the accompaniment; switch to a mellower mood, and the Adaptive Style mellows out along with you. The accompaniment joins you wherever you are at any given time, giving every tune the thrilling feel of a live performance.

SIMPLE STYLE – MINIMAL ACCOMPANIMENT FOR A SIMPLER SOUND

When you want to make things simpler and highlight the instrument Voice you're playing, one push of a button is all it takes to strip the accompaniment down to rhythm and bass.

UNISON & ACCENT

Unison & Accent are functions that open up a wide array of expressive capabilities.

With Unison, you play a phrase while pressing the foot pedal, making the accompaniment Style play in unison with you. This lets you perform signature lines found in iconic songs or create your own signature licks for the whole band to follow. Accent lets you add rhythmic "shots" to accentuate notes of your choice simply by playing a little harder.

White DGX-670 available mid-year 2021

SPECIFICATION CHART
